AVG. TRUST RATING

Roja Scout currently lists **4 active properties** across the platform, with **0** of those (0%) carrying a verified badge. This report breaks that activity down by growth trend, market composition, and trust & safety outcomes.

CHAPTER 1

Growth & Activity

New Listings per Month (Trailing 12 Months)

Successful Matches per Month

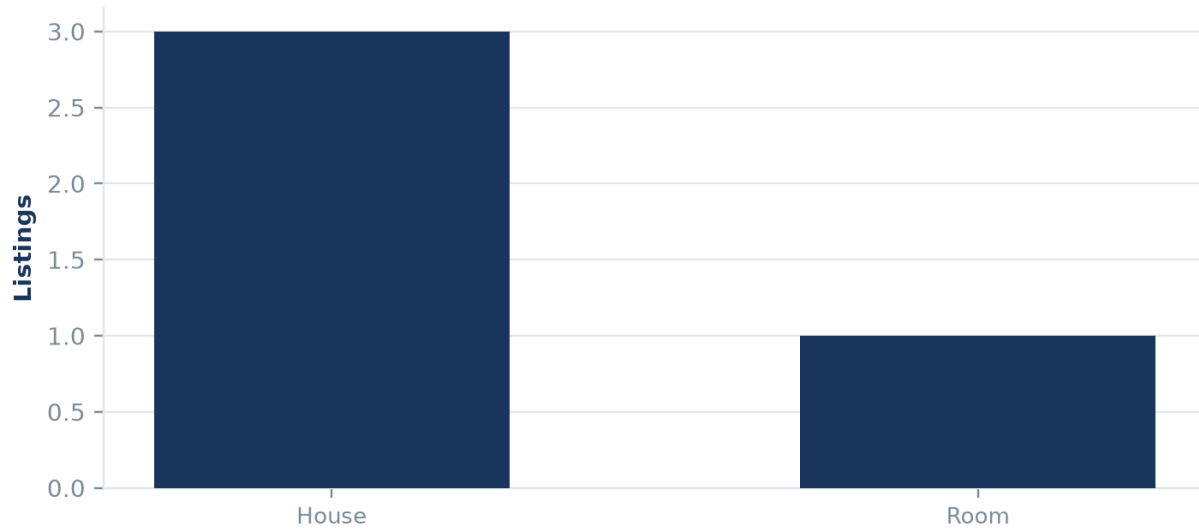

KEY INSIGHTS

Rising match volumes alongside steady inventory growth indicate healthy liquidity in the housing market, proving the platform is successfully connecting tenants with landlords, not just aggregating dormant listings.

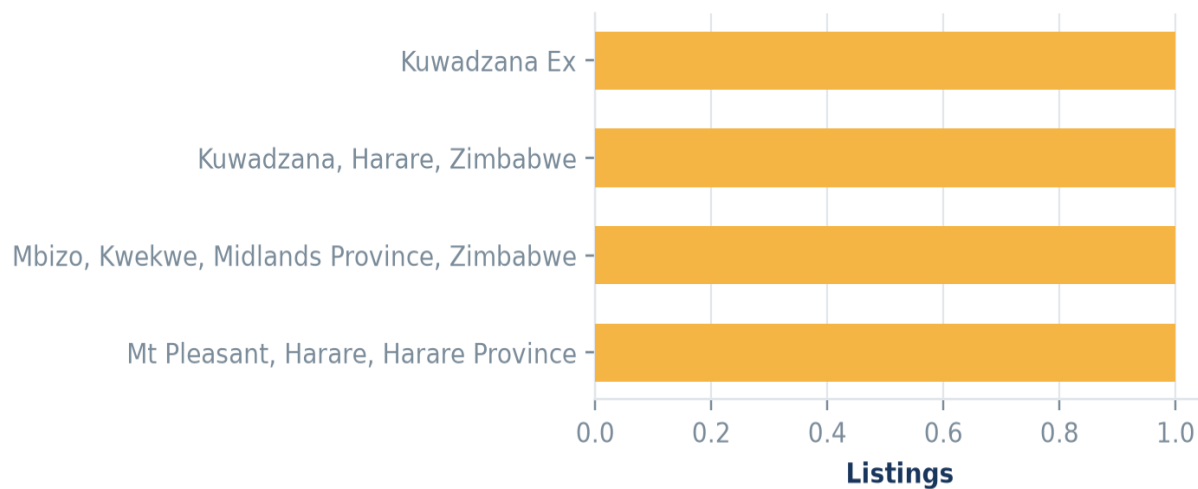

CHAPTER 2

Market Composition

Active Listings by Property Type

Most-Listed Locations

KEY INSIGHTS

Property type distributions reflect broader macroeconomic availability within Harare and surrounding regions. Identifying undersupplied property categories presents a direct opportunity for targeted landlord acquisition.

CHAPTER 3

Trust & Safety

Verified vs. Unverified Listings

Report Resolution Status

Status	Count
Pending Review	15

KEY INSIGHTS

Trust remains the core differentiator. With a verified rate of 0%, we continue to mitigate scam risks common in legacy property groups, accelerating the lease decision process for prospective tenants.
